**Key Skills**  
**Colours**  
 To research Viking weaving and their use of materials.  
 To discover why/ how they made their items.  
 To create your own weaves using a variety of materials.

**Sticky knowledge!**  
**Mixing colours:**  
 Keep your threads or fabric tight when weaving to avoid any holes.  
 Try to keep the threads as straight as possible to maintain a decent structure.

**Why not try:** using different materials in your weave? Could you use some wool, yarn, ribbon? Be experimental with colours!  
 Remember, this takes patience, so take your time to get the best results.

**Asking questions:**  
 Why did Vikings use weaving to make clothes?  
 How is this method different to now?  
 Do we still use weaving for any items of clothing?
