<p><b>1. Reading</b>- Can you complete the reading challenge grids (on the support sheet)?</p> <p><b>2. Spelling and Vocabulary</b> - Be sure to seek out the meanings of words, try using them verbally with your family and putting them into sentences</p> <p><b>Easy</b>- Tea Dream Coin Spoil Cake Game, Wide Smile Little Though</p> <p><b>Hard</b>- experiment extreme famous favourite February forward forwards fruit grammar group guard guide heard heart height</p> <p><b>Hardest</b>- category cemetery committee communicate community competition conscience conscious controversy convenience correspond criticise curiosity definite desperate</p> <p><b>3. Writing</b></p> <p>1) Every child is unique and special. Over the course of the last year, your child will have achieved so much. Remind your child that an achievement is something that has been accomplished through great effort, skill, perseverance or courage then ask them to mind map all of their achievements this year, both in school and outside of school. See resource sheet</p> <p>Encourage your child to write about this special achievement. How did they accomplish this? What barriers did they face? Who helped them? They could record this as a story featuring themselves as the main character, a newspaper report or even write a rap!</p>	<p>1) - Write a 5, 6 or 7-digit number down in the middle of a piece of paper. How many ways can your child partition the numbers? <b>CHALLENGE:</b> How many ways could the number given be made?</p> <p>2) Ask your child to record the ages of each member of the household. Using all of the digits from these numbers, what is the largest number they can make? What is the smallest? How do they know it is the biggest or smallest number?</p> <p>3) Look at a recipe with your child. Ask them how much of each ingredient would be needed if the amount of people it was cooked for was halved, both sides of the argument. doubled, tripled etc. What maths do they need to think about to do this?</p> <p>4) On average female adults should have around 2000 calories a day and males around 2500 calories. Looking at the calories on food items, can your child design the meals for a day for either an adult female or male? Try and get them to fit in with the daily calorie recommendations</p>	<p>- Starting a new academic year is a time for your child to say farewell to current teachers and classmates and hello to many new faces. It is important for your child to cherish their favourite memories. Ask your child to create a drawing or art piece of their special memory and frame it in a hand-made photo frame. They may choose to draw a favourite lesson, a funny moment with friends, a school trip, their favourite teacher or a job role they were proud of. They may choose to decorate the photo frame provided or to craft their own using card. Click here for photo frame ideas. Share at <a href="mailto:KS2primary@thegrangeacademy.co.uk">KS2primary@thegrangeacademy.co.uk</a></p> <p>Ending the academic year can be a time that is full of mixed emotions for many children. However, whilst many aspects of school life change, many remain the same too. Spend some time with your child discussing all of the similarities and differences between their current class and the new class that they will be going into. Following this, ask your child to record the similarities and differences using a table. A new year is also a great time to make new friends. Can your child create a poster that illustrates top tips for making friends and showing kindness? They could speak to family members or their own friends to gather some ideas first.- see resource sheet.</p>
<p>Humanities &amp; The World (Science, History, Geography &amp; RE)</p>	<p>Creative (Art, DT, Music, Computing and MFL)</p>	<p>Independent Learning</p>
<p>Science- Plastic Bag Parachutes- see resources sheet!! Try different materials out- what does make the best parachute?</p> <p><b>Geography</b>- Create a world map using materials from your house or garden. Can you use materials that are associated with each support country (pasta for Italy, pork scratchings for the UK)? See the support sheet or</p>	<p>Art -Encourage your child to create a piece of artwork which represents their personality and highlights their individual qualities. This could be a picture or something more abstract using</p>	<p>Design and carryout your own family Sports Day! There are some ideas on the resource sheet you could use!</p>

materials available at home- see resources sheet for ideas.

**How to participate?**

1. Use the days prior to Sports Day to familiarise yourself with the challenges.
2. Practice the challenges as much as possible.
3. On your chosen day for sports day, record your scores for each challenge.
4. This is a personal best challenge, but there is no reason why you can not compete against others in your household.

# Home Learning Reflection

What I have learned during the last 2 weeks ...

What I have enjoyed .....

What I have found difficult .....

What I would like to learn next .....

Feedback from my teacher .....

# Home Learning Reflection

			
I enjoyed the work my teacher set			
I completed the work with a little help from an adult			
I completed most of the work independently			
I thought this work was interesting			
I had all the resources I needed to complete these activities			
Comments you would like to make to your teacher
