

# Pine & Lime

## Isolation

## Learning

2 week pack

English  
Writing

- Retelling a story
    - Non-chronological reports.
- Grammar
- Adverbs, prepositions, noun phrases, conjunctions and inverted commas.

PE  
Athletics  
Fitness

Science  
Sound

Find patterns between pitch and its source.  
Volume, strength and vibration.

History  
Ancient Greeks

**Pine**  
**&**  
**Lime**

Maths

- Place Value of 4-digit numbers.
- Addition and subtraction- 4-digit numbers.
- Ordering and comparing 4-digit numbers.

RE

Buddah's Teachings  
Is it possible for everyone to be happy?

Art/DT

- Using a range of tools accurately
- Use mod rock to create ancient Greek mask.

Reading

Reading for pleasure

- Reading common exception words.

MFL

Spanish

Identify Spain on a map and recognize Spanish speaking countries.

Name, count to 10, colours.

Music

Listen and appraise

Abba

(Charanga)

Exploring rhythms and beats of the songs.

Computing

E-Safety and keeping safe online.

Time	Lesson/Activity
9-9.20 or 20 minutes	<b>Reading</b> Read something from your house. It can be a book, a magazine, something on your tablet. 
9.20-9.30 or 10 minutes	Tell somebody about what you have read. You could tell a family member or facetime a friend. 
9.30-10 or 30 minutes	<b>Maths Activity</b> Pick an activity to complete. If you finish quickly make up some sums for yourself or test yourself on what you have learnt. 
10-10.15 or 15 minutes	<b>Common Exception Words</b> Pick 5 to 10 words and try and memorise them words. You could write them down to try and help you remember them or get someone to test you on them afterwards. 
10.15-10.45 or 30 minutes	<b>Break</b> Have a break and move around. Go outside do some exercise. Have some snack and a rest.
10.45-11.15 or 30 minutes	<b>Spelling Activity</b> Choose 5 or 10 spellings. Try to learn them. Look, Cover, Write, Check. Put them into a spoken sentence. Put them into a written sentence. 
11.15-11.30 or 15 minutes	<b>Arithmetic activity</b> Try and have a go at some of your time tables or numberbonds. You could also play on TTRS or some maths games on your tablet/phone or laptop. 
11.30-11.45	<b>Movement break. Put on go noodle and have a dance. Run around your garden or do some exercises.</b>
11.45-12 or 15 minutes	<b>Handwriting Activity</b> Practise some of the letters and words from your handwriting sheet. 
12-1 or 1 hour	<b>Lunch</b> Have your lunch. Go outside and get some fresh air or watch some TV and relax. 
1-1.30 or 30 minutes	<b>Comprehension</b> Complete one of the comprehension activities and answer the questions. 
1.30-2 or 30 minutes	<b>PE</b> Have a go at some of the PE links. Go in your garden and do some exercise. Play football or make an obstacle course. 
2-2.30 or 30 minutes	<b>English</b> Write in your isolation diary. Think about what you have done today and write about it. You may want to add more later on when the day has nearly finished. 
2.30-2.50 or 20 minutes	<b>Choosing Time</b> Play on your computer and tablet and can you challenge your friends to a TTRS battle?

## Day 1

### Counting in 1,000s

#### Discover

- How many lemon sweets are there on the pallet?
- How many strawberry sweets are there on the pallet?

#### Share

- There are 4 boxes of lemon sweets. Each box contains 1,000 sweets.

I will count up in 1,000s starting at 0.

There are 4,000 lemon sweets on the pallet.

- There are 6 boxes of strawberry sweets. Each box contains 1,000 sweets.

I will use base 10 equipment to represent the sweets.

There are 6,000 strawberry sweets on the pallet.

I wonder if there is a way of working out how many sweets there are without counting in 1,000s.

#### Think together

- How many lemon and strawberry sweets are there altogether?

There are  strawberry sweets.

There are  lemon sweets.

In total there are  sweets.

- Complete the number sequences.

100	1,000	2,000		5,000	7,000
8,000		6,000		3,000	
	1,000		3,000		
8,000		6,000			

- What number is represented below?

Write your answer in words and numerals.

The number represented is \_\_\_\_\_.

The number represented is .

- How can we make the number 8,000?

I think there is only one way.

Day 2

→ Workbook 4A p20

Unit 3: Place value – 8-digit numbers (1), Lesson 4

## Counting in 1,000s

1 How many cups are there altogether?

Write your answers in numerals and words.

There are  cups.

There are \_\_\_\_\_ cups.

There are  cups.

There are \_\_\_\_\_ cups.

There are  cups.

There are \_\_\_\_\_ cups.

### PUPIL PRACTICE BOOK 4A PAGE 15

Unit 3: Place value – 8-digit numbers (1), Lesson 4

2 Complete the number tracks.

3 a) What numbers are being represented? Write your answers in numerals and words.

Numerals:  Words: \_\_\_\_\_

Numerals:  Words: \_\_\_\_\_

4 Draw three thousand in base 10 equipment.

### PUPIL PRACTICE BOOK 4A PAGE 16

Day 3

Representing 4-digit numbers

Discover

Thods have 1,000 legs.

Yods have 100 legs.

Zods have 10 legs.

Oods have 1 leg.

- 1 M There are 4 Thods, 5 Yods, 3 Zods and 1 Ood. How many legs are there altogether?
- 2 M There are 7,420 legs. Which aliens are there now? Is there more than one possible answer?

Share

11 Each Thod has 1,000 legs, so 4 Thods have 4,000 legs.

Each Thod has 100 legs, so 5 Thods have 500 legs.

Each Thod has 10 legs, so 3 Thods have 30 legs.

Each Ood has 1 leg, so 1 Ood has 1 leg.

$$4,000 + 500 + 30 + 1 = 4,531$$

There are 4,531 legs altogether.

12

7,420 legs = 7 Thods + 4 Yods + 2 Zods

13

7,420 legs = 7 Thods + 4 Yods + 20 Zods

Instead of 2 Zods, I think there could be 20 Oods.

14

Oliver has represented the number of legs using base 10 equipment. Complete a part-whole model to match his representation.

15

Think together

1 There are 2 Thods, 5 Yods and 4 Oods.

Represent the number of legs using base 10 equipment. Write the number of legs in digits and words.

2 There are 2 Thods and 5 Oods.

Which representation does not match the total number of legs?

3 I do not think the 500 one matches the number of legs. It only has 1 thousand.

4 There are 10 hundreds though. I think I know what 10 hundreds is the same as.

Day 4

UNIT 1: Place value - 4-digit numbers (1), Lesson 6 Pupil Book 4A p24

## Representing 4-digit numbers

1 Write the numbers represented in numerals and words.

Base 10 equipment	Numerals	Words
		_____ thousand, _____ hundred and _____

2 Complete the part-whole models.

a)

b)

c)

UNIT 1: Place value - 4-digit numbers (1), Lesson 6

3 Draw lines to match the base 10 equipment to the correct part-whole model.

4 Which of the three numbers represented is different from the other two?

A

B

C

Explain your answer.

## Day 5

### 1,000s, 100s, 10s and 1s

#### Discover

1. What number has 4s made using 7 place value counters? Represent the number using base-10 equipment.
2. Make a different number using 7 place value counters on a place value grid.

#### Share

2 Thousands, 3 hundreds, 0 tens and 8 ones = 2,308  
 $2,000 + 300 + 0 + 8 = 2,308$   
 Ali has made two thousand three hundred and eight.

3. Here are some other numbers you can make with 7 counters.

1,414 has 1 thousand, 4 hundreds, 1 ten and 4 ones.  
 $1,000 + 400 + 10 + 4 = 1,414$   
 This is one thousand, one hundred and fourteen.

5,829 has 5 thousands and 8 tens.  
 $5,000 + 20 = 5,020$   
 This is five thousand and twenty.

I think there are more. I will try to write them in order.

#### Think together

1. What is the number shown in each place value grid? Write your answer in numerals.

2. Complete the number sentences and write the numbers in numerals.

44 =  thousands  hundreds  tens and  ones.

44 =  thousands  hundreds  tens and  ones.

3. Kate and Ali have made numbers on a place value grid.

Kate says: 'We have made the same number.'  
 Ali says: 'We have made different numbers.'  
 Who do you agree with?  
 Explain your answer.

I think the numbers are different. They do not look the same.

I wonder if the numbers have to look the same.

Day 6

→ Textbook 4A p28 UNIT 1: Place value – 4-digit numbers (1), Lesson 6

### 1,000s, 100s, 10s, and 1s

**1** Write in the number that is represented.

a) 

Th	H	T	O
●●●	●●●●●●●●	●	●●

b) 

Th	H	T	O
●●●●	●●●●●●●●	●●	●●●●

**2** Draw counters on the place value grid to represent each number.

a) 2,356

Th	H	T	O

b) Four thousand, eight hundred and four

Th	H	T	O

c)  $2,000 + 200 + 50 + 6$

Th	H	T	O

21

PUPIL PRACTICE BOOK 4A PAGE 21

UNIT 1: Place value – 4-digit numbers (1), Lesson 6

**3** Complete to make the number sentences correct.

a)  $3,458 = \square + \square + \square + \square$   
 $3,458 = 3,000 + 400 + 50 + \square$   
 $3,458 = 400 + 3,000 + \square$

b)  $3,000 + 700 + 70 + 2 = \square$   
 $3,000 + 50 + 7 = \square$   
 $3,000 + 500 + 70 = \square$

**4** Which one is the odd one out? Explain why.

a)  $3,000 + 1,700 + 40 + 9$

b) Four thousand, seven hundred and forty-nine

c) 

●●●●
------

●●●●●●●●
----------

●●
----

●●●●●●●●
----------

d) 

○	700
○	9
○	4,000
○	40

22

PUPIL PRACTICE BOOK 4A PAGE 22

## Day 7

### The number line to 10,000 1

#### Discover

- 1 a) What numbers are missing from Counting Stick A?
- b) What numbers are missing from Counting Stick B?

#### Share

- a) There are 10 equal intervals on Counting Stick A.

The counting stick starts at 0 and ends at 10,000.  
The counting stick goes up in 1,000s.  
The missing numbers are:

I will check by counting in 1,000s.

- b) There are also 10 equal intervals on Counting Stick B, so it must also go up in 1,000s.

I don't think that is right. The 10 intervals make 1,000, so I think each one must be 100.

The counting stick starts at 1,000 and ends at 2,000.  
There are 10 equal intervals, so this counting stick goes up in 100s.  
The missing numbers are:

#### Think together

- 1 What are the missing numbers?

- 2 What number is the arrow pointing to?

- 3 What are the missing numbers?

- 4 Reena and Max have both drawn a number line.

Reena

Max

Whose number line is incorrect?

How do you know?

If there were 20 intervals between the two numbers, what would each jump be?

I will check by counting up.

Day 8

Unit 1: Place value – 8-digit numbers (1), Lesson 7 Textbook 4A p22

### The number line to 10,000 ①

① What number is being shown on each number line?

a)

The number  is shown.

b)

The number  is shown.

c)

The number  is shown.

24

PUPIL PRACTICE BOOK 4A PAGE 24

Unit 1: Place value – 8-digit numbers (1), Lesson 7

② Write the missing numbers.

a)

b)

c)

③ Draw an arrow to show each number on the number line.

a) 4,160

b)

c) 8,450

25

PUPIL PRACTICE BOOK 4A PAGE 25

## Day 9

### The number line to 10,000 ②

#### Discover

- 1 a) The arrow shows how far Sofia has already run.  
How far has Sofia run?
- b) A few minutes later, Sofia has run 1,950 m.  
Where is the arrow now?

36

#### Share

a)

It looks like a number line. I worked out that the number line went up in 100s. I checked by counting in 100s.

The arrow is pointing to a number that lies between 1,000 and 1,100.

1,050 would be the half-way point.

The arrow points to a number greater than the half-way point.

Sofia has run about 1,070 m.

- b) 1,950 is half-way between 1,900 and 2,000.

The arrow is now pointing half-way between 1,900 m and 2,000 m.

37

#### Think together

- 1 Sofia now uses the bike. The arrow shows how far she has cycled.

How far has Sofia cycled?

- 2 Sofia rows 8,990 m on the rowing machine. Point to this distance on each of the three number lines.

I wonder what 8,990 is close to. This might help me to work out where the number lies.

38

- 3 a) Which numbers can be placed on the number line? How do you know?

CHALLENGE

- b) Which numbers **cannot** be placed on the number line?

- c) All of these numbers can be placed on the number line. Where could the number line end?

I think there are lots of answers for the last question.

I wonder if it could be one of the numbers in the list.

39

Day 10

Textbook 4A p.26

Unit 1: Place value - 4-digit numbers (1), Lesson 8

## The number line to 10,000 ②

1 Show the numbers on the number lines provided.

a) 7,800

b)

c) Four thousand four hundred

27

### PUPIL PRACTICE BOOK 4A PAGE 27

Unit 1: Place value - 4-digit numbers (1), Lesson 8

2 Show 4,600 on each of the number lines.

a)

b)

3 Write three numbers that could appear on each number line.

a)

b)

c)

I will work out the intervals on the number line first.

28

### PUPIL PRACTICE BOOK 4A PAGE 28

## The Exam

It was the day after my maths test and we were just sitting down at the table in my favourite restaurant, The Royal Dragon.

"Choose whatever you like Danny," Dad said, "You deserve it."

Why do you think Danny has gone out for a meal?

## Haunted

Everyone at school was talking about it. They were convinced that there was something in there, something...awful.

I didn't believe them and I was going to prove them all wrong, there had not been anyone living there for years. I knocked on the door. Three loud knocks. My heart froze at what happened next....

Where is the child in the story?  
What do you think happened next?

## Fireworks

Whistle, bang, clap, whizz!

The fireworks flew up into the cold November sky. Zainab was standing at the lounge window watching in amazement, when Robbie, her pet dog, came dashing past.

"Oh no!" Zainab exclaimed and ran after Robbie to see if he was ok.

What is wrong with Robbie?  
How do we know something is wrong?

## Garden Birds

### Why do Birds Matter?

- They help plant life by scattering seeds. This means that seeds get to travel to different places and grow in other places.
- They control insect growth. Many birds eat insects. Without birds eating them, there would be a dangerously high number of insects.
- Birds, like magpies and crows, eat dead animals. This gets rid of the rotting animals which could cause diseases.

### Numbers of Common Garden Birds

There has been a big drop in the number of starlings. The reason could be that farming has made it more difficult for them to find their favourite food – the crane fly larvae.

The number of house sparrows has also dropped. This could be because of cats, or air pollution due to more cars being used. Fortunately, last year, there was an increase in house sparrows reported through an RSPB survey.

There has also been an increase in less well-known birds, like fieldfares. One reason for seeing more fieldfares in gardens seems to be the cold weather that has made them leave the countryside and look for food in gardens.

#### RSPB

The Royal Society for the Protection of Birds - a charity that protects British birds.

## Questions

1. Why is it a good thing that birds help scatter seeds?

---

---

2. What would happen if birds did not eat insects?

---

3. Name one bird that eats dead animals.

---

4. What is a starling's favourite food?

---

5. Give one reason why there are fewer house sparrows around.

---

6. What do the RSPB do?

---

# Picture News

A tribe in Brazil have chosen to block a highway that cuts through the Amazon as the Brazilian government is not complying with a list of demands that includes aid to help with the impact of COVID-19. Protesters from the Kayapo group have been blocking traffic on Brazil's BR-163 highway for nearly a week.

## Things to talk about at home...

- 🌱 What do you think about the Kayapo people's actions? Why do you think they made the decision to do what they did?
- 🌱 Talk about the different communities that you are part of and how they may have helped you during difficult times.

Look at the resource below, where some people share their experiences of their communities during a time they found difficult.

I am part of a rural community. We had a huge amount of rain, which caused the homes of some people living in our community to be flooded. Everyone came together to help. The village hall was opened for people who couldn't stay in their home and donations of food, clothes and toys were made. Once the water went down, people all helped to clear and rebuild the houses affected by the floods. Other communities helped us too by making donations of money online, from where they lived in the UK.

Noah

I am part of a cycling community. We have a weekly meet, where we cycle in groups depending how far you want to cycle and how fast you want to go. Because of the coronavirus, we had to cancel our meet ups. For some of our members, this was the only time they socialised with others and got out to exercise. To overcome this, we set weekly challenges for cyclists to complete by themselves then had a weekly zoom meet to discuss the routes we had been on and to catch up with each other.

Sophia

The play equipment in a park in my town was taken down as we were told it was unsafe. It was decided it wouldn't be replaced. Many people in our town community worked together to try to get it back. We wrote to our local MP, started a petition, shared banners and flyers saying 'save our park' with everyone in our town but nothing seemed to work. In the end, we decided to try and raise funds to pay for the equipment ourselves. We still haven't got the equipment yet, but we are all determined and will not give up!

Muhammad

What did people do to support their communities? Did it work?

Focus on Muhammad's comment. His town community have still not achieved their goal to get replacement equipment for the park. Do you think they should keep trying? Is there ever a time you should stop and accept defeat?

# Picture News

A mother from Northumberland recently spent £100 on a second-hand vending machine to provide an opportunity for her children to learn about money after tiring of them arguing over snacks and other items during lockdown. Mother of four, Sarah Balsdon, was getting so fed up with her children's constant arguments she and her husband, Kyle, came up with the idea to provide them in a limited and controlled way, whilst helping the children learn how to manage money.

## Things to talk about at home...

- 🐷 Have you received pocket money before, or do you receive it now?
- 🐷 Do you think the idea of getting pocket money is a good one? Why?
- 🐷 What age do you think children should start receiving pocket money?
- 🐷 Can you think of other ways that you can learn about money?

Look at the resource below, which shows how some children have received money. How did they get it? What did they do with their money?

I was given some money for my birthday. I decided to save half of it by putting it in my bank account and I spent the other half on a remote-control car that I had wanted for ages!

Clara

My parents give me £2 pocket money every Friday. I usually spend it over the weekend on sweets.

Freddie

I have a list of jobs to do at home such as empty the dishwasher, Hoover the sitting room, water the house plants. I don't have to do any of the jobs but each one is worth 50p so the more jobs I do, the more I earn. I usually put my money straight into my money box. I haven't decided what to spend it on yet!

Samir

I decided to sell some of my old books to earn some money. I set them all out at the end of my garden. I gave the money I made to a charity I wanted to help.

Harley

I get paid to look after my next-door neighbours' rabbit when they go away. I am saving my money up to buy my first car when I am 17.

Mia

Have you ever received/earned some money?  
What did you do with it?
