13<sup>th</sup> January 2020

Dear Parent/Carer,

I would like to bring your attention to a valuable resource to help your child study and revise throughout the year to support them especially in preparing for their assessments.

It is a comprehensive revision book that contains all of the topics required during both year 7 and 8.

In order to help our learners and your child to achieve their full potential, I thoroughly recommend the CGP Key Stage Three Science Complete Study & Practice revision guide. Schools are able to purchase the revision guides at a reduced rate.

As your child is studying and learning a lot of content over these two years, this resource is invaluable in supporting your child's progress. These retail at £10.99 each but the school can purchase them at £5.50 each. The revision guide also comes with an online password to access the guide online.

This resource is both a revision guide and at the end of each topic has some questions that students can complete to support their learning and independent revision.

You can also purchase if you wish, revision cards which contain questions on one side and the answers on the back, which students can use independently or you can help your child revise asking questions and reviewing answers together. These retail at £8.33 however the school can purchase these also at a reduced rate of £4.50.

You are able to purchase these yourselves from WHSmith or Amazon at the higher cost.

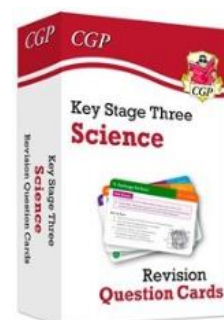

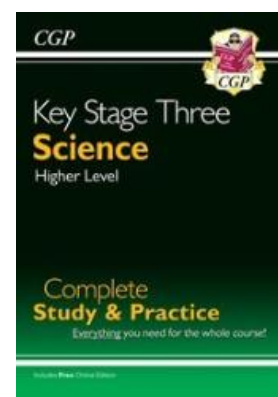

Please complete the attached form to indicate whether you would rather purchase these at home or through the school. If you wish to purchase them through the school, at the reduced rate, then please complete the order table attached. To order the correct number of guides we require the money in advance.

**Please inform your child to take the order form and the correct money to the finance office in an envelope, or pay on Scopay, by 27<sup>th</sup> January. Orders after this date will not be processed.**

Yours sincerely,

Mrs R Harris  
Head of Science
